

The Reaches Atlas

Five shards of inhabited land, held apart and together by the Unlit. Every room below is laid out where the builder put it, and every line is an exit that exists. The four dashed rings are the whole of the progression: nothing else in the world is locked.

Ossara

Ilvaro, and Sulveth at the rim

LEVELS	STRENGTH	ZONES	ROOMS
1–12	×1	4	52

The green Reach, and the one everybody starts in. Ilvaro's country: worked land, short roads, and a gate in the middle of town that has not opened in living memory.

Gatetown

1–3

The town around the oldest known gate. Everything a person needs on their first day and most of what they need on their hundredth, arranged around a ring of dark stone nobody can make work.

The Terrace Gate

The Landing

Where everything arriving in Grask arrives, and where most of it is sold twice.

grask.the-landing

Stiltmarsh

16-22

The wet ground east of the cut, built over rather than drained.

The Owing

20-24

Ravvan's deepest cut, and Mhorrek's ledger. Work stopped here abruptly.

Azhen

Azhimet, who measured the Unlit

LEVELS	STRENGTH	ZONES	ROOMS
24-34	x3	4	50

Opened, measured, and abandoned. Azhimet's people built the gates and left their instruments running.
